Sassy Peek a Boo Activity Book		<p>Enhance visual tracking skills with high-contrast colors that captivate attention. Foster understanding of object permanence through engaging peek-a-boo features. Delight the senses with crinkly pages that provide satisfying auditory feedback with each interaction, encouraging exploration and learning</p>
Sassy Tummy Time Mirror		<p>Encourage tummy time with an engaging spinning ball nestled in a charming ladybug design, motivating little ones to reach out with their arms. The striking black-and-white patterns enhance visual tracking skills, while the integrated mirror supports self-recognition and the exploration of facial expressions, promoting developmental milestones in a fun and interactive way.</p>
Soft Rattles for Baby		<p>Experience rewarding auditory feedback with each gentle tap, encouraging interaction and engagement. The high-contrast black-and-white design promotes visual tracking, stimulating developing eyesight. Additionally, the soft handles are designed to enhance grasping skills, providing a tactile experience that supports motor development while keeping playtime enjoyable.</p>
High Contrast Tummy Time Toy		<p>This innovative board allows for interchangeable cards to maintain visual interest and engagement. It promotes visual tracking and encourages cervical rotation as little ones explore the entire surface. Designed to motivate tummy time, this versatile tool supports developmental milestones while keeping playtime dynamic and captivating.</p>
Smart Noggin		<p>The top changes colors when hit and provides visual reward; the bottom rattles for auditory reward; middle is textured for sensory input and for grasping; the bottom has black/white contrast for visual tracking; mirror on the bottom for mimicking and visual tracking</p>
Hello, My World		<p>This high-contrast book is designed to enhance visual tracking skills with its striking colors and patterns. As little ones flip through the pages, they explore the concept of object permanence, fostering cognitive development and curiosity. Each turn of the page invites discovery, making reading an engaging and educational experience.</p>
Tummy Time Water Mat		<p>The water mat provides a stimulating sensory experience that encourages tummy time and motivates exploration. Designed to enhance arm strength and endurance, it invites little ones to reach for various textures and elements across the mat. This engaging play surface supports physical development while promoting sensory awareness and discovery.</p>
Fisher Price Mat		<p>This versatile play gym is ideal for all floor activities, featuring a piano at the bottom that encourages kicking and builds leg strength. The arch above supports arm strength and accuracy as little ones reach for toys, providing rewarding interactions. It can be utilized for tummy time,</p>

offering a well-rounded experience that promotes overall physical development/engagement.
